

CELTIC SEA SALT®

BRAND

Light Grey Celtic®

Description:

- Doctor recommended.
- No additives or processing of any kind.
- Unrefined, whole salt, hand-harvested and dried by the sun and wind.
- Retains the ocean's moisture and locks in a vast array of vital trace minerals.
- A coarse, moist salt with a light grey hue from the pure clay beds where the crystals form.

Flavor:

- There is no comparison in taste or in health benefits between mineral-rich Celtic Sea Salt® Brand salt and chemically treated iodized salt.
- A rustic old-world flavor that is more assertive than other varieties.

Suggested use:

- Dissolves easily in soups and stews or use as a rub for grilling.
- Great for cooking, baking; or table use—grind with a mortar and pestle or use a ceramic salt grinder.

"This is the one I use. It has a long track record with me. This is what I recommend for my patients."

Dr. David Browntein, M.D.
